

Bank technology consulting that pays for itself.

# Peace of Mind Starts Here

Founded in 2007, Genesys is designed to be an **advocate** for the community banker. We take the **guesswork** out of mission-critical technology **evaluations and contract negotiations**. Our services include the following...

**Core Contract Renewals**  
**Core Evaluation & Selection**  
**Contract & Pricing Negotiations**  
**In House v. Outsourcing**  
**Merger & Acquisitions**

"We hired Genesys to assist with our evaluation and selection of a new Digital Channel partner as well as conducting due diligence on new core vendors. The Genesys team did an excellent job of helping us sort through our options and selecting the best partners and terms to meet our strategy. I would recommend them hands down to any bank looking for a skilled, trust-worthy partnership."

DJ Seeterlin - CIO, Chesapeake Bank

**Genesys Technology Group, LLC**

5239 Cottney Croft Way  
Norcross, Georgia 30092
